The award she had received was the Best HOD award in the year 2022. She is the author and contributor in several distinguished books holding a benchmark in the field of Periodontal Surgeries and Dental Implants.

### FROM HOD'S DESK

## OVERVIEW

'Dental Hygienist' is a trained personnel who scales, cleans or polishes teeth or gives instructions in Dental Hygiene. 'Dental Hygienist' works under the supervision of a Registered Dental Surgeon. The roles and responsibilities of Dental Hygienist pertain to educating patients about proper oral care, maintaining the cleanliness of their patient's teeth and performing X-rays and other tests to assess teeth or gum problems.

A Dental Hygienist course is of utmost importance as it provide candidates with the necessary knowledge and skills to maintain oral health and prevent dental diseases. This course not only focuses on preventive Dental care but also educates students on the latest advancements in Dental technology and techniques. A seperate course is arranged for the training of Dental Hygienists by the Institutions.

## ALUMNI TESTIMONIALS:

### Gopichand, DHC- Batch 2021-2023

"Pursuing Dental Hygienist Course as a career choice has been the best decision after completing my course from Santosh Dental College. Since I am currently assisting in a Dental Clinic, it has given me valuable hands-on experience in treating patients and further honing my expertise in the field. My daughter (2023-25 batch) chose the same platform for her career growth. I highlighted the numerous opportunities and resources available through this program that could greatly benefit her career growth."

### Ashish, DHC- Batch 2021-2023

"Faculty guided me very well throughout my academic journey. Their expertise and support helped me gain a deeper understanding of the subject matter and develop valuable skills. I am grateful for their guidance, as it has had a significant impact on my personal and professional growth. Now, I have the opportunity to assist dentists during treatments, perform dental cleanings, take X-rays, and educate patients on oral hygiene practices. After getting successful exposure on this platform, I assured my sister to opt for this program and she is pursuing DHC 2023-25 batch."
