With a commitment to excellence, innovation, and compassionate care, we aim to shape the future leaders of the healthcare industry. Join us at Santosh, where academic rigor meets practical wisdom, ensuring your success in the dynamic world of Hospital Administration. Your path to making a difference in healthcare starts here.

OVERVIEW

The Bachelor of Science in Emergency & Trauma Care Technology is an undergraduate bioscience 4-year clinical program that focuses on preparing students for roles in Emergency Medical Care. The program is being offered at Santosh Deemed to be University and gaining hands-on experience in managing healthcare delivery at the Santosh Hospitals, Ghaziabad. The program covers disease processes and specialized technical skills to deal with emergency and trauma-critical medical situations. The students are equipped to gain practical experience by handling significant medical equipment for medical and surgical cases, including cardiac, neurological, polytrauma and pediatric emergencies. Internship is a part of the curriculum where students will have to do the Internship in Santosh Hospitals itself. A candidate must have passed in all subjects to become eligible to undergo a compulsory internship of one year. For the candidates who have not passed all the subjects, the third year shall be extended until they become eligible to undergo compulsory internship.
